DIARY NOTES

25X1A

DD/S

19 August 1957

1. At the Deputies' Meeting:

25X1A9a

a. [redacted] advised that Congressman Arends had asked CIA for information pertaining to the Moscow Youth Conference. General Cabell asked that the Legislative Counsel be assigned action responsibility.

25X1A

b. We discussed proposed Regulation No. [redacted] "Protection and Disclosure of Information." It was suggested that the Regulation be so worded that an individual subpoenaed might be represented by counsel. (I referred it back to [redacted] to reconsider this point.)

25X1A9a

c. General Cabell agreed that offering to furnish transportation

25X1A9a

for [redacted] might set a bad precedent; consequently, we have dropped the idea. (I have so advised [redacted].)

25X1A9a

2. Met with [redacted] to discuss the

25X1A7b

inequity to an [redacted] man soon to be stationed in [redacted] inasmuch as normally he would be on vouchered funds and could not receive the same allowances which other CIA personnel stationed in the [redacted] receive. We decided to consider this individual as just an additional member of the over-all station and to put the whole operation on unvouchered funds.

3. [redacted] buzzed to say that Mr. Malcolm A. MacIntyre, Under Secretary of the Air Force, would be here for lunch at 1:00 p.m. on Thursday and would remain for a briefing thereafter. General Cabell wants me to be present for the luncheon and to brief Mr. MacIntyre for about fifteen minutes on the DD/S organization, mission, and functions.

25X1A9a to explore the matter but emphasized to all concerned that I thought the  
25X1A9a chances of doing this were practically nil. (Later in the day I discussed  
the proposal with Matt Baird and [redacted]. Matt said that he  
25X1A9a didn't want [redacted] under any circumstances. However, it also developed  
that [redacted] does not have any reserve status at all; therefore, the pos-  
sibility of such an arrangement is quite remote.)

b. Ting Sheldon said that he was losing [redacted] ---who is Chief  
of the Soviet Staff in the Office of Current Intelligence---and asked if by  
any outside chance we had a candidate for his replacement.

25X1A9a

25X1A6a 5. I advised [redacted] that I had talked to General Cabell about the disposal  
of [redacted] and that he had told me that aside from putting it in mothballs---which  
has already been done---we should not make any effort to dispose of it. Ernie seemed  
to think that if this were the case the Project would like to turn it over to someone else.  
I told him that it would appear to me that if we were to retain it the Project was in a  
better position than anyone else to carry the load and that if they had any ideas to the  
contrary to please address a brief memorandum to me on the subject. *H*

7. Talked to Matt Baird about several personnel problems. He does not want Bill

25X1A9a

[redacted] However, he is very pleased at the opportunity of getting Lew  
[redacted] an overseas assignment as a Support War Planner. (I have also talked to Lew  
about this matter who is most anxious to have the job as [redacted] replacement if 25X1A9a

25X1A9a

[redacted] He hopes that he can be called to active duty as an Air Force Colonel. Also  
talked to Matt about [redacted] and he approved of our current efforts to get him a job  
in the Planning and Program Coordination Staff. Also suggested that he consider Bob

[redacted] for possible use in the Management Training Staff.
